Last updated: February 14, 2026

RESEARCH INTEREST	Human-AI Interaction, Human-Agent Interaction, Agent Simulation, Decision Making	
EDUCATION	University of Tübingen Tübingen, Germany	2023.10-2026.03
	M.S., Quantitative Data Science (<i>Concentration</i> : Machine Learning), GPA 1.81/1.0	
	Chung-Ang University Seoul, South Korea	2017-2023
	B.A. B.E., Sociology & Computer Science, GPA 4.13/4.5 & 3.96/4.5	
RESEARCH EXPERIENCE	Research Intern , Porsche Human-Centered AI Research	2025-2026
	- Identified decision space for multi-occupant autonomous vehicles to establish design guidelines by conducting multi-agent simulation, online survey and topic modeling - Conducted LLM fine-tuning using human feedback data to enhance reasoning capabilities in real-world application for user-study	
	Research Intern , Bosch Research (BCAI)	2024
	- Developed Preferential Bayesian Optimization algorithms to optimize machinery settings by modeling expert human preferences - Conducted synthetic bias experiments to identify cognitive biases and developed mitigation strategies for human-in-the-loop experimental design	
	Research Assistant , Methods Center	2023-2024
	Developed a state-based model (Kalman Filter) using students' psychological data to predict dropouts in STEM fields, enhancing educational environments	
	Research Assistant , HIKE Lab	2020-2021
	COVID-19: Our Memory: Identified pandemic-driven social inequalities via text mining and statistical analysis; awarded Community Award among 320 participants - Assessed policy efficacy and enhanced data visualization for the public; presented at Open Data Day Seoul 2021 - Projects donated to the National Library of Korea as the first case of a non-governmental digital archive	
	Research Assistant , Da Move Lab	2020-2023
	- Constructed and analyzed 3-year dataset of South Korea's online petitions revealing embedded biases through text mining and NLP techniques - Extended dataset analysis to entire system's duration; applied fine-tuned language model for sentiment analysis and regression modeling to identify structural limitations in civic engagement platforms	
PUBLICATIONS	Sim-DSE: Mediating Multi-User Orchestration in Confined Shared Spaces through Simulation-Augmented Design Space Exploration	
	Kayoon Kim [*] , Jan Henry Belz [*] (Equal Contribution [*])	
	<i>In manuscript, UIST 2026</i>	
	Mobilizing grievances in the internet age: The case of national online petitioning in South Korea, 2017-2022	
	Kayoon Kim , Chan S. Suh	
	PLOS ONE 2024	

POSTERS	Sim-DSE: Mediating Multi-User Orchestration in Confined Shared Spaces through Simulation-Augmented Design Space Exploration Jan Henry Belz*, Kayoon Kim * <i>Under Review, CHI 2026</i>	
	Claiming for Rights: The Changing Landscape of Issues and Claims in the National Petition of South Korea, 2017-2020 Kayoon Kim International Postgraduate and Academic Conference 2021	
WORK EXPERIENCE	Data Quality Manager Intern , Kakao Style, South Korea	2023
	- Analyzed model prediction data and developed dashboards to enhance model accuracy and user experience - Designed and developed an automatic labeling model that streamlined the review text labeling processes, reducing manual effort by 50%	
HONORS & GRANTS	DAAD STIBET Scholarship , German Academic Exchange Service (DAAD)	2025
	Research Stipend , Porsche AG	2025-2026
	Research Grant , National Research Foundation of Korea	2024
	Merit-and-need-based Scholarship , Seoul Scholarship Foundation	2022
	Merit-and-need-based Scholarship , Lotte Scholarship Foundation	2021
	Community Award , Ministry of the Interior and Safety, South Korea	2020
	National Scholarship , Korea Student Aid Foundation	2017-2021
SERVICE	Reviewer	
	Interactive Media Experiences (IMX)	2026
	Organization	
	Participant, EAAMO Urban Data Science Working Group	2025-2026
	Communication Chair Volunteer, Tübingen Women in Machine Learning	2025
	Content Creator Volunteer, Soapbox Science Tübingen	2025
	Guest Speaker, Chung-Ang University	2022
	Delivered a single session lecture on the overview of computational social science and data science for an Introduction to Sociology course to engage freshmen	
	Academic Advisor, COSADAMA	2020-2021
	Designed instructional sessions on Git, GitHub, and Python programming for non-STEM major students; mentored participants throughout the learning process	
	Class Representative, Chung-Ang University	2018
SKILLS	Language	
	English (Full professional proficiency), Korean (Native)	
	Programming and Development	
	Python, R, C, SPSS, MySQL, Pytorch, Git, Linux
