Last updated: April 9, 2026

RESEARCH INTEREST

Human-AI Interaction, Human-Agent Interaction, Social Simulation, Decision Making

EDUCATION

University of Tübingen Tübingen, Germany 2023.10–2026.09

M.S., Quantitative Data Science (*Concentration*: Machine Learning), GPA 1.81/1.0

Chung-Ang University Seoul, South Korea 2017–2023

B.A. B.E., Sociology & Computer Science, GPA 4.13/4.5 & 3.96/4.5

RESEARCH EXPERIENCE

Research Intern, Porsche Human-Centered AI Research 2025–2026

- Conducted multi-agent simulation, online survey and topic modeling to identify decision space for multi-occupant autonomous vehicles to establish design guidelines
- Implemented LLM fine-tuning using human feedback data to enhance reasoning capabilities in real-world application for field-study

Research Intern, [Bosch Research \(BCAI\)](#) 2024

- Developed Preferential Bayesian Optimization algorithms to optimize machinery settings by modeling expert human preferences
- Conducted synthetic bias experiments to identify cognitive biases and developed mitigation strategies for human-in-the-loop experimental design

Research Assistant, Methods Center 2023–2024

- Developed a state-based model (Kalman Filter) using students' psychological data to predict dropouts in STEM fields, enhancing educational environments

Research Assistant, [CAU Data Science Lab](#) 2021

- Explored recommendation systems by implementing and evaluating algorithms to enhance human decision-making

Research Assistant, [HIKE Lab](#) 2020–2021

- **COVID-19: Our Memory**: Identified pandemic-driven social inequalities via text mining and statistical analysis; awarded Community Award among 320 participants
- Assessed policy efficacy and enhanced data visualization for the public; presented at Open Data Day Seoul 2021
- Projects donated to the National Library of Korea as the first case of a non-governmental digital archive

Research Assistant, [Da Move Lab](#) 2020–2023

- Constructed and analyzed 3-year dataset of South Korea's online petitions revealing embedded biases through text mining and NLP techniques
- Extended dataset analysis to entire system's duration; applied fine-tuned language model for sentiment analysis and regression modeling to identify structural limitations in civic engagement platforms

PUBLICATIONS	Sim-DSE: Mediating Multi-User Orchestration in Confined Shared Spaces through Simulation-Augmented Decision Space Exploration Jan Henry Belz*, Kayoon Kim * (Equal Contribution*) <i>Submitted, AutoUI 2026</i>	
	Mobilizing grievances in the internet age: The case of national online petitioning in South Korea, 2017–2022 Kayoon Kim , Chan S. Suh PLOS ONE 2024	
POSTERS	Claiming for Rights: The Changing Landscape of Issues and Claims in the National Petition of South Korea, 2017–2020 Kayoon Kim International Postgraduate and Academic Conference 2021 (Korea-Taiwan-Japan)	
WORK EXPERIENCE	Data Quality Manager Intern , Kakao Style, South Korea - Analyzed model prediction data and developed dashboards to enhance model accuracy and user experience - Designed and developed an automatic labeling model that streamlined the review text labeling processes, reducing manual effort by 50%	2023
HONORS & GRANTS	DAAD STIBET Scholarship , German Academic Exchange Service (DAAD)	2025
	Research Stipend , Porsche AG	2025–2026
	Research Grant , National Research Foundation of Korea	2024
	Merit-and-need-based Scholarship , Seoul Scholarship Foundation	2022
	Merit-and-need-based Scholarship , Lotte Scholarship Foundation	2021
	Community Award , Ministry of the Interior and Safety, South Korea	2020
SERVICE	National Scholarship , Korea Student Aid Foundation	2017–2021
	Reviewer Interactive Media Experiences (IMX)	2026
	Organization Participant, EAAMO Urban Data Science Working Group	2025–2026
	Communication Chair Volunteer, Tübingen Women in Machine Learning	2025
	Content Creator Volunteer, Soapbox Science Tübingen	2025
	Guest Speaker, Chung-Ang University Delivered a single session lecture on the overview of computational social science and data science for an Introduction to Sociology course to engage freshmen	2022
	Academic Advisor, COSADAMA	2020–2021
	Designed instructional sessions on Git, GitHub, and Python programming for non-STEM major students; mentored participants throughout the learning process	
	Class Representative, Chung-Ang University	2018
SKILLS	Language English (Full professional proficiency), Korean (Native)	
	Programming and Development Python, R, C, SPSS, MySQL, Pytorch, Autogen, Model Context Protocol, Git, Linux
