Last updated: February 15, 2026

RESEARCH INTEREST	Human-AI Interaction, Human-Agent Interaction, Agent Simulation, Decision Making	
EDUCATION	University of Tübingen Tübingen, Germany	2023.10–2026.03
	M.S., Quantitative Data Science (<i>Concentration</i> : Machine Learning), GPA 1.81/1.0	
	Chung-Ang University Seoul, South Korea	2017–2023
	B.A. B.E., Sociology & Computer Science, GPA 4.13/4.5 & 3.96/4.5	
RESEARCH EXPERIENCE	Research Intern , Porsche Human-Centered AI Research	2025–2026
	- Identified decision space for multi-occupant autonomous vehicles to establish design guidelines by conducting multi-agent simulation, online survey and topic modeling - Conducted LLM fine-tuning using human feedback data to enhance reasoning capabilities in real-world application for user-study	
	Research Intern , Bosch Research (BCAI)	2024
	- Developed Preferential Bayesian Optimization algorithms to optimize machinery settings by modeling expert human preferences - Conducted synthetic bias experiments to identify cognitive biases and developed mitigation strategies for human-in-the-loop experimental design	
	Research Assistant , Methods Center	2023–2024
	Developed a state-based model (Kalman Filter) using students' psychological data to predict dropouts in STEM fields, enhancing educational environments	
	Research Assistant , HIKE Lab	2020–2021
	COVID-19: Our Memory: Identified pandemic-driven social inequalities via text mining and statistical analysis; awarded Community Award among 320 participants - Assessed policy efficacy and enhanced data visualization for the public; presented at Open Data Day Seoul 2021 - Projects donated to the National Library of Korea as the first case of a non-governmental digital archive	
	Research Assistant , Da Move Lab	2020–2023
	- Constructed and analyzed 3-year dataset of South Korea's online petitions revealing embedded biases through text mining and NLP techniques - Extended dataset analysis to entire system's duration; applied fine-tuned language model for sentiment analysis and regression modeling to identify structural limitations in civic engagement platforms	
PUBLICATIONS	Sim-DSE: Mediating Multi-User Orchestration in Confined Shared Spaces through Simulation-Augmented Design Space Exploration	
	Kayoon Kim [*] , Jan Henry Belz [*] (Equal Contribution [*])	
	<i>In manuscript, UIST 2026</i>	
	Mobilizing grievances in the internet age: The case of national online petitioning in South Korea, 2017–2022	
	Kayoon Kim , Chan S. Suh	
	PLOS ONE 2024	

POSTERS	Sim-DSE: Mediating Multi-User Orchestration in Confined Shared Spaces through Simulation-Augmented Design Space Exploration Jan Henry Belz*, Kayoon Kim * <i>Under Review, CHI 2026</i>	
	Claiming for Rights: The Changing Landscape of Issues and Claims in the National Petition of South Korea, 2017–2020 Kayoon Kim International Postgraduate and Academic Conference 2021	
WORK EXPERIENCE	Data Quality Manager Intern , Kakao Style, South Korea	2023
	- Analyzed model prediction data and developed dashboards to enhance model accuracy and user experience - Designed and developed an automatic labeling model that streamlined the review text labeling processes, reducing manual effort by 50%	
HONORS & GRANTS	DAAD STIBET Scholarship , German Academic Exchange Service (DAAD)	2025
	Research Stipend , Porsche AG	2025–2026
	Research Grant , National Research Foundation of Korea	2024
	Merit-and-need-based Scholarship , Seoul Scholarship Foundation	2022
	Merit-and-need-based Scholarship , Lotte Scholarship Foundation	2021
	Community Award , Ministry of the Interior and Safety, South Korea	2020
	National Scholarship , Korea Student Aid Foundation	2017–2021
SERVICE	Reviewer	
	Interactive Media Experiences (IMX)	2026
	Organization	
	Participant, EAAMO Urban Data Science Working Group	2025–2026
	Communication Chair Volunteer, Tübingen Women in Machine Learning	2025
	Content Creator Volunteer, Soapbox Science Tübingen	2025
	Guest Speaker, Chung-Ang University	2022
	Delivered a single session lecture on the overview of computational social science and data science for an Introduction to Sociology course to engage freshmen	
	Academic Advisor, COSADAMA	2020–2021
	Designed instructional sessions on Git, GitHub, and Python programming for non-STEM major students; mentored participants throughout the learning process	
	Class Representative, Chung-Ang University	2018
SKILLS	Language	
	English (Full professional proficiency), Korean (Native)	
	Programming and Development	
	Python, R, C, SPSS, MySQL, Pytorch, Git, Linux
